

THE BLAIRMORE ENTERPRISE

VOL. XVI, NO. 49.

BLAIRMORE ENTERPRISE THURSDAY, DECEMBER 3, 1926.

MASS MEETING TUXIS AND TRAIL RANGERS

About three hundred lads between the ages of 10 and 22 years attended the mass meeting of Crows' Nest Pass Tuxis, Trail Ranger and Beaver groups held at the United church on Sunday afternoon.

On the platform were Revs. Herbert Hendry, D. K. Allan, C. H. Pintor and J. W. Oliver. Mr. Oliver occupied the chair.

Addresses were delivered by Mr. Hendry and Mr. Hendry, both specialists in young people's work.

Mr. J. Christie, of Bellevue, presided very acceptably at the organ. Eight large autos were necessary to bring in the boys from Coleman, Bellevue and Hillcrest, and a vote of thanks was accorded those who so kindly offered their cars for the occasion.

LITTLE BLAIRMORE TOT DIES FROM INJURIES

The sympathy of all goes out to Mr. and Mrs. E. Picard in the loss they are this week called upon to bear in the untimely death of their little daughter, Mary Agnes.

The little girl had been playing on Sunday with other children on a small sheet of ice in front of her home and in some unaccountable manner slipped backward, her head coming into contact with the hard surface. She was immediately picked up by friends and conveyed into the house in an unconscious condition. Medical aid was summoned, but it was found that little, if any, hope could be entertained for the child's recovery, and without regaining consciousness the little girl passed away on Tuesday forenoon.

Mary Agnes had almost reached her fourth birthday. Besides being the pet of the family, she was dearly loved by scores of children in the neighborhood.

Funeral took place yesterday afternoon, from St. Anne's church, Rev. Father Cosman officiating.

Mr. and Mrs. E. Picard and family desire through The Enterprise to thank their many friends for floral offerings and other expressions of sympathy with them in the loss of their dear baby, Mary Agnes. The following beautiful floral tributes are acknowledged: Mr. and Mrs. G. A. Paterson and family, spray; Mr. and Mrs. S. Burns and family, wreath; Mrs. Tiberg and family, spray; Mr. and Mrs. Carnochan, spray; Mr. and Mrs. L. L. Morgan, anchor; Mr. and Mrs. C. Bouthiller, spray; Mr. and Mrs. George Bouthiller, spray; Mr. and Mrs. W. W. Scott, spray; Mrs. E. L. Johnson, wreath; Mr. and Mrs. Carl Smith, spray; E. S. Kafoury and family, spray; Mr. and Mrs. J. S. Gillis, spray; Mrs. C. D. Martin, wreath; Thelma and Tena Howe, spray; Sandy and Jack Ferguson, spray; G.G.T. Girls, wreath; Daddy, Mother, Sisters, Brothers and Uncles, cross.

SLIGHT CHANGE EFFECTED IN TEACHING STAFF

The regular meeting of the Blairmore School Board on Friday night last was attended by Chairman Dutil, W. H. Chappell and W. A. Beebe, and Secretary Graham.

The minutes of previous regular meeting were adopted as read and a number of accounts were duly passed for payment.

Upon motion by Mr. Chappell, the resignation of Mrs. Gugen as primary teacher was accepted, to take effect at the end of December, and the application of Miss Vina McKenzie, of Vancouver, was accepted to fill that vacancy, duties to commence in January at the same salary. The reason for Mrs. Gugen's resignation is that she was unable to procure an A grade certificate, but was permitted to teach to the end of the present term. Miss McKenzie has had several years experience in primary work and has Alberta qualifications. Mrs. Gugen's resignation had been in the hands of the board for some weeks, but no action was taken thereon until an appeal in her behalf had been made by the board to the department of education.

A report from the principal was read, as to the general condition at the school. The attention of the board was drawn to a number of pupils being needed at the central school, and upon motion, the secretary was instructed to have eight blinds purchased, to be installed by Mr. L. Montalbet.

Request of Mr. Wheatley for three months leave of absence was granted.

On the last Friday in December being Christmas Day, it was decided to hold the December meeting on the night of Saturday, December 25th, and to notify all interested parties of the change.

Communication was received from Selectors Gillis & Mackenzie, stating that they had applied to have the case of Thompson et al versus the School District set down for December the 7th.

A motion was passed authorizing the opening of the public school at 9:30, instead of 9 a.m., from now until the end of February.

The school will close on Wednesday, December 23rd, for the Christmas holidays, to reopen on January 3rd.

CARD OF THANKS

Mr. and Mrs. John Hutton and family wish to thank the people of Bellevue and district for kind expressions of sympathy in their recent bereavement; also for the floral tributes and for the use of cars for the funeral.

Following were the floral offerings: Wreaths—Father, Mother and Jack; Jack and Edith, Dave and Lena.

Mr. and Mrs. G. A. Vissac (Blairmore), Officials Bellevue Mine, Mrs. Emma House is the place and Mrs. Fred Wolstenholme, Sprays "Charley's Aunt" is the girl.

BLAIRMORE FIRST AID ASSOCIATION FORMED

At a well attended meeting held in the Mine Rescue Cax on Sunday afternoon, a local First Aid Association was formed, with the following officers:

Honorary president—G. A. Vissac
Honorary vice-presidents—Rev. W. T. Young, L. P. Robert
President—Moses Johnson
Vice-President—W. H. Chappell, junior

Secretary-Treasurer—A. R. Granger.
Executive Committee—A. Wolnsey, Marshall Hamilton.

Motion by Chappell and Hamilton, that the class be held every Friday night at 7 p.m., at the United church clubroom, commencing with Friday, December the 4th. Carried.

Dr. J. Olivier was chosen as medical lecturer and Ed. Royle as instructor.

The committee was instructed to interview the honorary members and the town council for donations. Committee appointed, Messrs. Johnson and Chappell.

About a dozen names were attached to the register.

FIRST AID CLASSES

Classes for senior and junior First Aid will be held tomorrow night in the United church clubroom, commencing at 7 o'clock, and will continue for every Friday thereafter.

Canada As A National Unit

The conference held in Winnipeg last month of two hundred representatives of the Dominion Trade and Commerce from every province in Canada, and called together for the avowed purpose of frankly discussing the economic situation and needs of Canada, and from which discussion all partisan political considerations and controversies were rigidly excluded, gives promise of having inaugurated a new era in the discussion and consideration of practical questions and problems. At the concluding session one delegate characterized it as the "second Canadian confederation," and apart from the important resolutions, all unanimously adopted, provision was made for the continuation of the work of the conference by the forming of a Dominion Board of Trade.

There was plain speaking at the conference, and no minimizing of the extent of the problems and difficulties at present confronting the Dominion, but, in all respects, there was a pronounced note of confidence in Canada and in the courage, ability and determination of the Canadian people to work out their own and their country's salvation. Canada has progressed greatly during the first fifty years of confederation, but the conference was agreed that in the years just ahead of it will be found its great opportunity, which, if fully grasped, will lead to a future of brilliance, abounding development and prosperity.

The object of the conference was to bring together representative business men from the Maritime Provinces, Ontario and Quebec, the Prairie Provinces, and British Columbia in order that the problems or grievances and the economic outlook of each of these four main sections might be frankly presented and just as frankly discussed in the hope that as a result a better understanding might result in all a spirit of give and take, of compromise, of a willingness to get together be developed. The conference was unquestionably a success in these respects.

The economic situation in the Maritime Provinces received lengthy and sympathetic consideration, and it was generally agreed that action should be taken to help solve the problems at present confronting that portion of the Dominion. Maritime representatives strongly urged that it was essential that steps be taken to encourage the use of Canada's Atlantic waters, and the diversion to those ports of much of the Canadian traffic now going to world markets through the United States. On the other hand the steadily growing importance of trade via the Pacific route and the Panama Canal to Europe was outlined. Then, between these two, the case for the development of the St. Lawrence and Great Lakes waterways to enable ocean-going vessels to come well into the interior of Canada and Great Lakes vessels to proceed overseas without breaking bulk, as well as the development of the Hudson Bay route, were presented. In time, no doubt, all these routes will be fully utilized, but the question now is, apart from purely political or sectional considerations, which offers the most immediate and greatest benefit results to Canada as a whole.

In regard to another question, however, namely the coal mining industry, it was found that the interests of the Maritime Provinces and Alberta are largely identical, and one of the gratifying results of the conference was a joint meeting of men from these two widely separated sections to draft a resolution covering this question, not from a Provincial or local point of view, but from a broad national standpoint.

The conference likewise discussed a wonderful unanimity of opinion on the subject of immigration. Far East and Far West united with the more central Provinces in declaring that Canada's greatest need was more population in order to assist in carrying present national burdens of taxation, to solve our complex railway and transportation problems, and to develop the wealth of national resources of which Canada can boast. There was equal unanimity in declaring that recent administrations at Ottawa have been neglectful of the essential national work of immigration, and an unequivocal demand made for the inauguration and prosecution of a most aggressive immigration policy.

Tangible results may be expected from the conference, but its greatest value will doubtless be found in the promotion of that better understanding between all sections of the Dominion which was the basis for underlying the holding of the conference. It is even too much to hope that the conference has given marked impetus to the development of that more intangible thing which Canada has lacked, and the lack of which has been causing real concern and even jeopardizing the future of the Dominion, namely, a national spirit.

The Winnipeg conference thought and acted nationally in a way that even the Dominion Parliament has seldom achieved. This, in itself, holds promise of much future good for Canada.

New Transportation Device

Snowmotor Can Negotiate Roads Other Vehicles Cannot Use

During the coming winter, Canada will see the debut of a new transportation device known as the snowmotor. This consists of two hollow cigar-shaped cylinders or drums to which flanges, resembling car wheels, are attached. These drums are fixed to an automobile or tractor in the place of the wheels and, by rotating, actually lift the machine over the snow. The snowmotor is regarded as especially valuable in the transportation of lumber. It can operate in countries where other methods of transportation are impossible or too costly and can also make roads which other vehicles can use. It is manufactured in Detroit and will be on the market in Montreal during the coming winter.

China produces about 60,000 long tons of unshelled peanuts in a year.

Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds

Children's colds are easily upset by too much internal medicine. VapoRub being externally applied, does not upset little stomachs.

At the first sign of cold, sore throat, or any other cold trouble, apply Vicks VapoRub. There is nothing to swallow—no harm in it.

VICKS VAPORUB

Over 21 Million Jars Used Yearly

Sour Stomach Risings Subdued by "Nervine"

A Few Drops Bring Relief

The wonderful relief you get from twenty drops of Nervine will surprise you. Take it to sweeten water, and almost immediately you feel better. Nervine brings up the gas caused by fermenting food, and relieves that distressing feeling in the stomach. When cold or warm strikes you at night, Nervine is a sure relief. For general use in the family, for emergent use, always keep your Nervine on hand. See at all dealers.

Expect Busy Lumbering Season

The trek of bushmen to the woods has commenced and already a large number are at work. Operators are expecting a busy winter, and so far have had no trouble in recruiting labor. Already supplies to the value of \$100,000 have been forwarded to the camps of the various pulp and paper concerns, and private operators in the Thunder Bay district.

RHEUMATIC PEOPLE NOW FIND RELIEF

By Driving the Poisonous Acid From the System

Rheumatism attacks people when the blood is thin and watery or charged up with impurities, thus setting up inflammation of the muscles and joints. The rheumatic suffers, who always may start the pains, but the cause is rooted in the blood, and to get rid of it, the blood must be purified.

As a blood purifier and nerve tonic, Dr. Williams' Pink Pills are unsurpassed, and for that reason do not fail to give relief to rheumatic sufferers when given a fair trial. Among the "champion" sufferers, who have proved the great value of this medicine is Mr. N. M. Foley, Windsor, S. M. He writes: "I suffered with a bad cold, the result of working in a heavy rainstorm. From that time on, the rheumatism set in, and it crippled me and kept me confined to bed for upwards of six months. The doctor who treated me did not help me, and every friend who called to see me had something different to advise. Some of them recommended surgery, but with no better results. My legs were stiff from the hips down, and every morning I had to get out of bed and constantly I was growing weaker. Then a friend from Palmouth, who came to see me, asked if I had tried Dr. Williams' Pink Pills. I had taken so much medicine without benefit that I was skeptical and said no. My friend, however, had so much faith in the pills that he got me a supply and to please him I began taking them. I had not been taking long when I began to feel a change for the better, and I gladly got a further supply. Soon I was able to get out of bed and walk around on crutches. Still taking the pills, I used in all seventeen boxes, by which time I was a well man and at work every day. Now I always keep a box of Dr. Williams' Pink Pills in the house, and if I feel an ache or pain I take them, and always with good results. I believe I would still be a bed-ridden cripple but for these pills, and I shall always praise and recommend them."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockton, Mass.

British Industries Fair

Canadian Manufacturers Will Send Exhibits to Show in England in February

Many Canadian manufacturers will send exhibits to the British Industries Fair, which opens some time in the end of February, and which will be visited by between 40,000 and 50,000 buyers from all parts of the world, according to F. W. Field, senior British trade commissioner for Canada and Newfoundland. The great fair will be held simultaneously in London and Birmingham, and is the largest annual trade fair in the world.

Blind, Twine Used in Canada

To bind her huge grain harvest, Canada now uses annually an average of from 60,000 to 100,000 pounds of twine, and ranks second only to the United States in her total annual consumption.

Running Into Debt May Be a Pleasure

"Three Little Maids"

New Theatrical Offering By Capt. Plunkett To Be Produced in the West

For seven seasons, ever since the Dumbells' Revue began their record-breaking Canadian tour, Capt. M. W. Plunkett, the producer, has been besieged with requests for more theatrical offerings of the same high standard—particularly musical comedies. Capt. Plunkett was determined, however, that he would not add to his theatrical enterprises until he was personally convinced that his second series would be as outstanding an event as his first was.

"Three Little Maids," the London and New York musical comedy, "one of the best of the kind," its tour marks the inauguration of a new policy. "Three Little Maids" is crammed with good music and unusual music. Its songs are classed by critics as "The most beautiful in a generation."

Capt. Plunkett has given the play a magnificent production. Scenic and lighting effects were specially designed and Capt. Plunkett has contrived to introduce that peculiar speed and sparkle which is a unique characteristic of all his productions. Western dates are as follows:

Walker Theatre, Winnipeg, Tues. Dec. 1, to Sat. Dec. 5; Regina Theatre, Regina, Mon. Dec. 7, to Wed. Dec. 9; Empire Theatre, Saskatoon, Thurs. Dec. 10, to Sat. Dec. 12; Empire Theatre, Edmonton, Mon. Dec. 14, to Wed. Dec. 16; Grand Theatre, Calgary, Thurs. Dec. 17, to Sat. Dec. 19; Orpheum, Vancouver, Mon. Dec. 21, to Wed. Dec. 23; Royal Theatre, Victoria, Thurs. Dec. 24, to Sat. Dec. 26.

There is only one Kraft Cheese

Be sure this mark is on the cheese you buy. Or you run the risk of getting a cheap imitation behind it.

SUNDAY SCHOOL LESSON

DECEMBER 6

PAUL'S VOYAGE AND SHIPWRECK

Golden Text: Be of good cheer: It is I; be not afraid. Matthew 14:27. Lesson: Acts 27:1-44. Devotional Reading: Isaiah 10:32, 33.

The Text Explained and Illuminated

Paul Fraternizes the Sailors' Plot, verses 20-32.—Read the Historical Background. The sailors under pretense of throwing out anchors from the forests had, in fact, told the centurion and soldiers of the sailors' plan, and warned them that without the sailors' help, the boat could not be managed and all would perish. The soldiers promptly settled the matter by cutting the ropes that held the boat and letting her drift away.

"This enthusiastic, fanatical dreamer, as most men would call him, this visionary of the 'Historical Background.' The sailors under pretense of throwing out anchors from the forests had, in fact, told the centurion and soldiers of the sailors' plan, and warned them that without the sailors' help, the boat could not be managed and all would perish. The soldiers promptly settled the matter by cutting the ropes that held the boat and letting her drift away."

Voice Starts Automobile

Claims Electricity Can Be Controlled By Spoken Demand

A Nottingham inventor claims that he has an invention by which electricity can be controlled on spoken demand.

The inventor, L. H. Pearson, states that the device consists of an apparatus for transforming the sound waves in such a way that they operate and control an electric circuit.

The invention has been patented as "Pearson's Acoustic Control," and at a demonstration given at an electricity exposition seemed remarkably successful.

Canadian Historical Stamps

New issue will shortly be placed on

According to an announcement by the post office department, the first of a series of Canadian historical stamps is soon to be issued. The new stamps will be three in number—one bearing the portraits of Baldwin and LaFontaine, a second, the portrait of Thomas D'Arcy-McGee, and a third, the portraits of Sir Wilfrid Laurier and Sir John Macdonald. "In addition to their educational value," says the department announcement, "they are also likely to be highly sought and highly valued by stamp collectors in different parts of the world."

Indian Woman Dies On Hunting Trip

Widow of Quebec Trapper Was Hundred Years Old

Mrs. Louis Thomas, widow of an Indian trapper, of Lake Umbagog, Quebec, died suddenly while hunting, according to a verdict of coroner's jury. She was supposed to be 100 years of age.

Mrs. Thomas lived in a camp near the lake and a few days after she left for her hunting trip, her canoe was found upside down and full of game. The body was found in the lake a few yards from the canoe, and it is thought that Mrs. Thomas died of heart failure while hunting.

FORMULATE PLAN TO BRING NEW SETTLERS HERE

Ottawa.—Large expenditures of effort and money to multiply many times the number of settlers coming to swell the manpower of Canada is contemplated in plans formulated by the Federal Government. These plans are rapidly approaching maturity, the first intimation of the new move being contained in an announcement that W. A. Egan, deputy minister of immigration and colonization, will leave almost immediately for Great Britain and that W. L. Little, until a short time ago immigration commissioner for the Dominion in Great Britain and who was succeeded by Bruce Walker, is to undertake a special immigration mission in the United States under the direction of Hon. Chas. Stewart, acting minister of that department.

One of the features of the enlarged scheme is understood to be that it will provide for solely English-speaking immigrants, the chief effort, while having regard for adaptability, some other plans will be given consideration. Another feature will be, it is understood, that the colonization phase of the work will be stressed even more strongly than has been the case under the British empire settlement plan. The following efforts and the work of getting immigrants properly established, will be given close attention both in the matter of those coming from Great Britain under the empire scheme and of those coming from the United States.

Trade Conditions Improving

Upward Trend Indicated By Annual Statement of Bank of Montreal. Ottawa.—Signs of improving business continue to appear in the reports published by the Dominion bureau of statistics.

Out of six indicators of trade conditions recently published by that office five show an upward trend.

The single exception is building. The indexes that show upward movement are railways loadings, employment, pig iron, exports and imports.

Montreal.—The Bank of Montreal has made public its annual statement for the year ended October 31, 1925. It indicates general trade improvement, showing larger demands for business expansion by increase in current loans. Total assets now amount to \$755,147,876 against \$719,194,797 at the end of the half-year period. Capital and reserve accounts are shown at \$22,316,700, up from \$22,500,000.

Want Alberta Coal

Ottawa.—The Ontario Government will lend every possible effort to at once obtain the remaining 6,000 tons of Alberta coal still due this province under the contract entered into by the Alberta, Ontario and Federal Governments, through the Canadian National Railways, Hon. Charles McCrea, minister of mines, stated. About 19,000 tons of coal were received out of the 25,000 tons total under prior to the railway withdrawing its cars for the grain movement.

The grain movement should be pretty well completed by the middle of December, stated Mr. McCrea. "We are taking the matter up with Sir Henry Thornton, first, as to the 6,000 or 7,000 tons shipment, and, secondly, to see if, under the conditions now existing, this tonnage could not be increased."

Awarded I.O.O.F. Scholarship. Victoria.—Frederick J. Brand, of Victoria, winner of the first scholarship presented in British Columbia under the I.O.O.F. war memorial scheme, has been selected as a winner of the 1925 overseas scholarship, valued at \$1,400, and presented under the same auspices. The scholarship is tenable for one year at a university in Great Britain.

C.N.R. Increases Revenues. Montreal.—For the month of October, 1925, net revenues of Canadian National Railways, after payment of operating expenses, were \$2,159,358, an increase of \$1,464,115 over October, 1924, and of \$2,874,944 over October, 1923.

Radio Guides Plane. Paris.—Captain F. A. Barnard recently flew a big air express from Paris to London above the Channel, and came back the same way, being guided the whole way by radio from the Crocydon airframe.

W. N. U. 1646

Saskatchewan Egg Pool

May Be in Position To Start Operations Early In New Year

Kepin, Sask.—The success attending the final drive for contracts in the Saskatchewan egg and poultry pool indicates that the pool will be in a position to start operations early in 1926. G. S. Edwards, chairman of the provincial board of directors, announced.

Approximately 3,000 contracts have been received to date at headquarters, and an increasing number is coming in daily. There are 240 men canvassing for contracts in various parts of the province on a commission basis, and more are appointed to the various municipalities. It is hoped that sufficient contracts will have been secured by the end of this year to enable the provincial board to take the necessary steps to have a permanent board of directors, elected by the contract signers in time to start the pool operating in March, 1926.

An Historic Inn

Dickens Shrine in Boston About to be Demolished

Boston, Mass.—The historic Parker House, birthplace of the famous "Parker House Roll," and since 1854 one of Boston's most celebrated hotels, served its last breakfast recently. When the last guest had departed, preliminary steps were taken for the demolition of the building, to make way for a modern structure of 700 rooms.

Charles Dickens spent a winter there, and recently the Dickens Fellowship in Boston paid a farewell visit to the rooms which by acceptance of which have been kept since as a historic shrine.

Blow To Communists

Conviction of Twelve Members Charged With Seditious Libel

London.—The trial of twelve Communist leaders which ended in the Old Bailey with sentences of imprisonment of six months for the five principal prisoners, against whom previous convictions had been proven, and six months for the seven others, against whom no previous convictions were recorded, is the greatest blow the Communist party has yet experienced in this country.

The men, who were charged with conspiring to publish seditious libels and with violation of the Incitement to Mutiny Act, will be classed in Canada as members of the British Syrian Mission, is held prisoner by the Druses at Hasbela, their headquarters, according to advices received by the mission headquarters in London. Mrs. Grev is reported to be well treated and allowed to walk about the town freely.

Appeal For Large Sum. Washington.—For the first time since its foundation over eight years ago, the American Legion, through valuable contributions to science heretofore have been spared from its endowment and by special gifts, will carry an appeal direct to the people for \$100,000,000 to enable it to undertake many of its major projects and to continue its publication.

Plan World Press Conference. Chicago.—S. N. AuYoung, director of the Chinese Government bureau of economic information, at Peking, announced proposals for a world press conference at Peking in 1927. He said he was to confer shortly with Dean Walter Williams at the University of Missouri, president of the World Press Congress, who favored the proposal.

Unearth Old Tomb in Athens. Athens.—Thirty ancient tombs have been unearthed in Athens by floods from Mount Lykabettos, at the foot of which they lie. Numerous pot ornaments and vases have been uncovered, as well as five mummies. Archaeologists are greatly interested, but are undecided what period is represented.

Claims He Invented Tanks. London.—Claiming he originated the idea of tanks in the Great War, Captain J. B. Bentley appeared in the high court in his suit against the British Government for \$1,500,000 "compensation," which he insists is due him on account of the extensive use of his idea in the British army.

Object To Having Census Taken. London.—England has a difficult time determining the population in several of her colonies. Some natives believe that it is un lucky to be counted and go to great extremes to dodge the census.

Half-Breeds Facing Trial For Murder

Alleged To Have Goin Grippie On Hazelton Reserve, B.C.

Prince George, B.C.—Alexander Bird, Frank Bird and Albert Bird, half-breed residents of South Fort George, have been charged with the murder, September 12, last year, of the Hazelton Indian Reserve, of Matthew McLean, and probably will be placed on trial at the spring session here.

Alexander Bird was arrested at Hazelton by Provincial Constable Clarke. He was picked up by the police near Hazelton, and Frank Bird is serving a sentence here for drunkenness.

On the date of the alleged murder the Indians were holding a celebration on their reserve, which is said to have ended in a free-for-all fight, at the end of which McLean was slain.

Pictureque Trader Leaves Stock Exchange

Disposed of New York Seat For Record Price

New York.—In health, has driven from the New York stock exchange one of the most active and picturesque floor traders, Jacob Field, known generally as "Jacks," who started on the street as a messenger boy.

In 1899 he paid \$19,000 for his seat, and he disposed of it for \$152,000, the highest price on record.

He was a "true lance" trader, and a cubby hole in a broker's branch office was his headquarters.

PROGRESSIVES OF ALBERTA MIGHT ASSIST LIBERALS

Calgary.—Based upon which the former members from Alberta will co-operate with the Liberal Government was discussed at a conference of the newly-elected U.P.A. Federal members of parliament held in Calgary. Robert Gardner, member for Acadia, was appointed by the gathering to present the views of the Alberta members to Premier King.

Discussing possibility of co-operating with Mr. Meighen, the conference came to the conclusion that the Conservative leader's attitude on the tariff and upon western freight rates, made co-operation with his party an impossibility. As far as the Liberal stand on the tariff was concerned, they were inclined to the opinion that little could be expected in the way of immediate tariff changes.

There were three points upon which the U.P.A. members felt that they could seek to co-operate with Premier King and the Liberal party with some hope of success. These were the establishment of a system of rural credits; the introduction of the single transferable vote; and the transfer of the control of "natural" resources to the provincial government, a move which would place the right to develop the Spry Lake power project under the control of the Alberta Government.

Battle With Seas. San Francisco.—The Marine Exchange of the Chamber of Commerce received a message from Honolulu saying the steamer Ryohoh limped into that port yesterday after a two-day battle with storms in mid-Pacific. The ship's bridge, chart room, and captain's cabin were badly damaged, and her steering gear crippled. The Ryohoh, of 2,467 tons net, sailed from Vancouver, October 13 for Kobe.

BEARS LOSE FEAR OF MAN

Black and brown bears at Jasper National Park have become so tame that they frequently visit Jasper Park Lodge grounds in search of food, and according to the report of Col. D. Maynard Rogers, park superintendent, be-

come so bold that they break into cottages and camps for food and have to be destroyed. Photographs show black and brown bears at one of the construction camps at Jasper, where they have learned to regard man as their friend rather than their enemy.

THE OVERSEAS DOMINIONS AND LOCARNO PACT

London.—The attitude of the British dominions to the Locarno pact was a subject for lengthy debate in the House of Lords, and the trend of the speeches was that the overseas governments should support the action of Britain. The dominions "must not regard the treaties as if they have no obligations in Europe," Viscount Grey of Faldoon declared.

The Earl of Hallow said he had no misgivings regarding the result of the Locarno pact. The British dominions, he said, were not bound by the treaty, but he was sure they would realize that this was a great effort on the part of the Mother Country to secure peace. The dominions would see if great war was forced upon Great Britain under the treaty that the whole moral forces of the world would be behind her. Such a war obviously would be a defensive one, intended to check brutal and unnecessary aggression, and was merely feelings of patriotism and common kinship would move the dominions to sympathize with the Mother Country, but all the elements of higher morality to which the dominions were singularly alive.

Lord Hail of the opinion that the best way was for the British Government to inform the governments of the dominions of the conduct of the negotiations in connection with the treaty as swiftly as possible and leave them to judge for themselves.

GRAIN SHIPMENT RECORDS BROKEN FOR THE SEASON

Winnipeg.—Grain loadings at Port William and Port Arthur broke all records for the season Nov. 29, when 8,916,000 bushels of grain were shipped out from the terminal elevators.

Shipments by boat from the port of Vancouver also were heavy, the exact figure being 753,230 bushels.

Vancouver elevator space is virtually filled, officials of the Canadian Pacific Railway transportation department stated yesterday.

On the Canadian Pacific lines there were marked on Nov. 28 in Manitoba 123,735 bushels; in Saskatchewan 1,299,232 bushels; and in Alberta 926,753 bushels, making a total of 2,849,720 bushels. A total of 1,572 cars was loaded, while 1,441 Canadian Pacific grain cars were inspected in the west.

Thousand Treaties Registered By League

Member Nations Are Observing Clause Of Covenant

Geneva.—The number of treaties registered with the League of Nations reached 1,000 with the filing by Sweden and Norway of the documents which changed relative to the interpretation of their arbitration convention of 1905.

Officials of the league assert all the member nations are faithfully observing the clause of the covenant which obligates them to register all treaties.

To this clause United States President Wilson attached the greatest importance as an instrument for furthering open diplomacy.

Large Terminal Warehouse

Building To Be Erected On Toronto's Waterfront Will Cost \$400,000

Toronto.—Following negotiations between representatives of a large syndicate in which many interests are represented and the Toronto harbor commission extending over several months, it was decided that a large warehouse was to be erected on the waterfront, to be used for the storage of grain and other commodities.

The new structure will be the largest terminal warehouse on the North American continent.

San Francisco.—The Marine Exchange of the Chamber of Commerce received a message from Honolulu saying the steamer Ryohoh limped into that port yesterday after a two-day battle with storms in mid-Pacific. The ship's bridge, chart room, and captain's cabin were badly damaged, and her steering gear crippled. The Ryohoh, of 2,467 tons net, sailed from Vancouver, October 13 for Kobe.

Revolt Among Chinese Troops

Supporters of Manchurian War Lord Fighting Each Other

Peking.—A serious revolt has occurred among the supporters of the Manchurian war lord, Marshal Chang Tso-li, who are fighting each other at Lianchow and Chingwang in Eastern Chih along the Peking-Mukden Railway.

The claims of the various parties, however, are conflicting.

Some quarters assert that General Kuo Sung-Lien, Manchurian general, has captured Mukden, the capital, and imprisoned Chang, while the other assert that Chang's loyal troops have broken the railway at Chingwang to hinder an advance by Kuo Sung-Lien against Mukden.

It is considered certain that the Mukden party has collapsed, at least temporarily, thus strengthening the hand of Feng Yu-Shiang, the Chinese general.

Threaten Life Of Japanese Premier

Guards Stationed At Residence In Safety Measure

Tokyo.—Heavy police guards stationed at the premier's residence, due to the recent letters threatening his life, coinciding with information in the hands of the police of assassination plans.

A fortnight ago a burglar knifed and shot a school teacher and policeman, and escaped. His associate, caught by the police, confessed that the murderer, knowing that eventually he would receive the death penalty, decided to end his career in a blaze of glory by killing the premier and as many other personages as possible.

Prince Salomon, visiting Tokyo, was constantly surrounded by a police guard.

Attempted To Smuggle Opium

Large Consignment Found When Steamer Docks at New York

New York.—Foo Fuh Hing, butcher of the steamship Eastern King, was held in \$15,000 bail in Brooklyn federal court charged with attempting to smuggle into this country 231 pounds of smoking opium when the steamer docked.

The drug, which was found concealed under the sheet last morning of the ship, was valued at \$15,000. The largest consignment seized from a ship here.

George Oliver, chief steward of the ship, was detained as a material witness.

Many Drowned In Athens

Floods Following Torrential Rain Cause Heavy Loss of Life

London.—More than 100 persons are believed to have perished in the floods in Athens, following a torrential rain of an hour and 20 minutes, says a dispatch to The Daily Express. Many houses in the refugee settlement collapsed. The inmates were buried in the ruins, and many were swept away and drowned. Flood waters from Mount Lykabettos washed up 35 tons in Anagnoropoulis Street here.

Will Pay \$1,100,000 Guarantee. London.—The British Government's financial obligations in connection with the British Empire Exhibition at Wembley, it is understood, will be liquidated in a few weeks, when a bill will be passed by parliament sanctioning the payment of the government's guarantee of £1,100,000 on the same basis as the payment of the money guaranteed by private parties.

Canadian Nurses For China. Calgary.—Immediate steps will be taken to raise funds with which to send a delegation of Canadian nurses to the international nurses' convention to be held in China in 1926. Plans were formulated to this end at the convention of nurses attended by about 30 delegates from every section of the province.

Wine Price For Beans. Ottawa.—Wm. Darnbrough, Laurier, Sask., won first prize and the championship for beans at the Ottawa Winter Fair, and so kept that province in the limelight. It was not expected to have competition in beans from the west. The seed exhibit at Ottawa is the largest and best arranged in the history of the fair.

Manitoba Rhodes Scholar. Winnipeg.—Hector Allard, B.A., graduate of St. Boniface College, is Manitoba's 1925 Rhodes scholar. Mr. Allard has a long record of scholastic accomplishments and has won many medals and awards. He is also prominent in college sports.

Celebrates Birthday At Ottawa. Ottawa.—Right Hon. W. S. Fielding, former minister of finance, quietly celebrated his 77th birthday, Nov. 21, at his home here. Although removed from active political life two years ago, he remains a very active man in politics.

Retires Rhodes Scholarship. Vancouver.—Harry Wardlaw, aged 21, a United States student attending the University of British Columbia, has been awarded a Rhodes scholarship. It was announced by university officials.

SECURITY PACT LAW IS ADOPTED BY GERMANY

Berlin.—By an overwhelming majority, the Reichstag adopted the law approving the security pact and arbitration treaties initiated at Locarno, and also ordered Germany's entry into the League of Nations. The treaties will be formally ratified, thus enabling Chancellor Luther and Foreign Secretary Stresemann to proceed to London to sign the pact and treaties. In the course of the next month, Germany will make formal application for admission to the league.

The only opposition to the various treaties came from the German Nationalists, Communists and Extreme Nationalists, led by General Ludendorff. The attempt of the Nationalists to forestall Germany's admission to the league by demanding enactment of a special law authorizing such procedure was defeated by a heavy vote.

With regard to Germany's entry into the league, the Centre, German People's party and Democrats have adopted a resolution to urge the government to exercise all possible energy to obtain amplification of the concessions in accordance with the spirit of Locarno prior to Germany's entry into the league.

The resolution will be supported by the Social Democrats.

Canada Again Makes Concession

Allowing U. S. Vessels To Load Grain For Winter Storage

Ottawa.—United States vessels are permitted to load grain for winter storage at a Canadian port when the close of navigation this year, according to an order-in-council, made public here. This suspension of part of the Canadian coasting regulations is conditional upon the unloading of such cargo at a Canadian port when navigation is resumed next spring.

This concession has been made for several years past toward the close of the navigation season.

Conference To Bear Fruit. Vancouver, B.C.—The conference of boards of trade of all the larger cities of Canada, held in Winnipeg recently, is likely to prove one of the most important developments in Canadian affairs, in the opinion of D. H. Hanna, former president of the Canadian National Railways and veteran railroader and financier, who is visiting at the coast. Mr. Hanna was one of the representatives of the Toronto board of trade.

Will Pay \$1,100,000 Guarantee. London.—The British Government's financial obligations in connection with the British Empire Exhibition at Wembley, it is understood, will be liquidated in a few weeks, when a bill will be passed by parliament sanctioning the payment of the government's guarantee of £1,100,000 on the same basis as the payment of the money guaranteed by private parties.

HILLCREST HAPPENINGS

All the Hillcrest youngsters, and quite a few past the younger stage, are very much offended at the continual summer-like weather and keep casting longing eyes at the skating rink.

The young man, Leonard Bayley, who met with an accident near Coleman, is a resident of Hillcrest and was a prominent member of the Hillcrest baseball team, which was so successful last year.

A meeting of those interested in radios took place on Monday night in the community hall, and resulted in the formation of a Radio Club. The following were elected to the various offices: President, G. H. Aldham; Vice-President, Dr. G. B. Rose; Secretary, H. Stobbs. Committee—W. Stevenson, W. Hutchinson, J. C. Atkinson. A further meeting is being held some time during the present week.

A jolly house party given by Miss Nellie Royle, took place at her residence on Friday night. The invited guests were: Misses Lizzie Bambo, F. Maddison, Alberta Letcher, Rachel Price, Bessie and Mary Davies, V. Casagrande, Lily Makin, Olive Howcroft, Jessie and Peggy Collins, Jennie Stobbs and Edna Day. Games and music and dancing was indulged in until 9 p.m., when supper was served after which the entertainment continued until "Home Sweet Home" at 11.

On Monday night, the tea given by the ladies of the United church took place at the Masonic hall, the first table commencing at 5.30. Almost all of Hillcrest attended and had a fine time. During the dining, music was supplied by the Sunday school orchestra. After tea, everyone repaired to the main hall, where a musical programme was rendered, as follows: Joe Jasbee, violin solo; Mrs. G. H. Pinder and Mr. John Creighton, vocal duet; Mr. J. Tonks, vocal solo, with Mrs. Tonks accompanist; Mrs. Petrie, vocal solo. After the musical programme, a lantern lecture on "Bonnie Scotland" was given by Rev. J. H. Garden, of Pincher Creek. This was in a way to celebrate St. Andrew's Day and the lecture throughout was brimful of interest. Altogether, a pleasant evening was spent and a handsome sum was realized as a result of the ladies' efforts. The ladies desire to thank all who assisted towards the success of the affair.

The following concert programme rendered by the Hillcrest Amateur Orchestra at the opera house on Sunday last, will be repeated at the Bellevue Theatre on Sunday, December 13th, at 8.30 p.m.:

1. "Canada First," orchestra.
2. Overture from "Il Trovatore," orchestra.
3. Vocal Solo, "O, Loving Father," Miss Jennie Stobbs.
4. Trio (piano, violin, cello), "Cavalleria Rusticana" and "Moment Musical," Miss M. Horton, Miss H. Moyle and Mr. H. Stobbs.
5. "Orpheus on Fer," orchestra.
6. "Home Pumpkin," (characteristic), orchestra.
7. Baritone Solo, waltz, "Farwell," Mr. P. Salt.
8. Violin Solo by Master Joe Jasbee.
9. "Waldteufel Waltz," orchestra.
10. March, by orchestra.

The orchestra was conducted by Mr. J. E. Upton, of Blairmore, and was assisted by Messrs. G. W. Goodwin, cornet; W. Goodwin and L.

ELKS BIRTHDAY PARTY

The anniversary of the inauguration of the Blairmore Lodge of Elks was fittingly celebrated on Thursday night of last week, when in the neighbourhood of one hundred and forty people gathered in the Lodge Hall.

Whist formed the opening part of the evening's programme, when thirty-one tables were operated. The prize winners were: Ladies' first, Mrs. T. Barney; ladies' second, Mrs. McBurney (Coleman); consolation, Mrs. A. Moroney. Gents' first, Mr. G. L. Stevens; gents' second, Mr. R. Wootton; "real" consolation, Johnnie Dickson.

Following the drive, the unveiling of the birthday cake took place, when a most elaborate piece of handwork, the work of Mrs. F. M. Pinkney, with electrical effects by Eruken & Co., was opened to view. The cake was mounted on a stand in the centre of the south end of the hall, and was composed of four layers, the second from the top being the actual cake, while the entire structure was camouflaged with icing and very attractively lighted. A large candle on the top, beside the Elks' emblem, was lighted by Brother McKinnon, the exalted ruler of Coleman Lodge, and the cake was cut after luncheon by Mrs. Pinkney.

Supper was served in good style under supervision of a capable committee, after which a concert programme was carried out, which included songs by Mrs. Kerr and Mrs. Morgan, Mr. R. Wootton and others, and a dialogue by Misses Palmer and Dicken, entitled "Charley and Katrina." This latter item brought down the house and elicited an encore, the response being a duet "I never heard of anybody dying from kissing, did you?"

Dancing until 2 a.m. concluded the programme, and all voted the event out of the most enjoyable and successful in the town's history.

Then following a short break, chosen from a recent issue of the Medicine Hat News:

There were many new faces on the ice. Bond, star defense player on the Blairmore team last year, was showing his stuff. He is a nifty player and will probably be on the helping him.

"Ken Horns, of last year's Warriors, looks as good as ever and should show up better this year with Bond helping him."

"Boss Al Kay, whose brother is on the Blairmore senior team, formerly of Bassano and Leduc, Ontario, was out with the boys and will be going big after a few more workouts. It McKay, Teal, Rattray, Holley, Shingles, Backwell, Papst and Porter play on the forward lines, Bond Horns and Powell on the defense, the Poles will be right up in the race for city league honors."

You can tell a restaurant where common, ill-mannered folks eat—there are no cigarette butts in the coffee cups.

Goodwin, of Bellevue, with saxophone.

"God Save The King."

CHURCH OF ENGLAND

St. Luke's church, Blairmore, Sunday, December 6th, Ascend II.
9 a.m.—Holy Communion.
11 a.m.—Matins and Litany.
2.30 p.m.—The Catechism.
7 p.m.—Evening Service.

Give the Kiddies a Season Skating Ticket for Christmas.

Mr. Garnett, representing the Manitoba Bridge Company, who have the contract for erecting the large tippie and washer plant at Coleman, was in town last week end.

Monday's westbound passenger train was delayed some five hours in reaching Blairmore, owing to a wreck on the main line near Maple Creek, Saskatchewan, where two engines of a double-header freight plunged into a ditch. Thomas Sanson, a fireman of Medicine Hat, was injured about the head, back and legs.

ST. LUKE'S CHURCH ANNUAL SALE OF WORK

The ladies of St. Luke's Anglican church will hold their annual sale of home cooking, candles and flowers in the Lodge Hall on the afternoon of Thursday, December the 10th. Tea will be served from 3 to 6 p.m. At 6 p.m., a musical concert will be rendered by the pupils of Miss McKrill. Donations will be thankfully received at the hall on the morning of the day of sale, or will be called for at river will phone 247 or 264.

An exchange remarker: "The aristocracy of the prairie, the retired farmer and the wealthy merchant, may go to California and the B.C. coast to spend the winter, but with such delightful weather as we have been enjoying the past few weeks, we are perfectly content to remain in Good Old Alberta. Carry on, Foster!"

FOR SUBSCRIBERS TO

THE BLAIRMORE ENTERPRISE

-:- Southern Alberta's Best Weekly Paper -:-

As a Crowning Triumph to the many improvements recently made to this popular home journal, The Enterprise offers a wonderful new

INSURANCE POLICY FREE!

No other weekly newspaper in Canada has ever offered its readers such a magnificent and generous gift. The benefits offered by The Enterprise have been carefully and skilfully planned, so that they will at once make a universal appeal.

The Breadwinners coming home from their work—Husbands and Wives who encounter the daily perils of the street and travel—the Children who in every-day life run many and frequent risks—all have received consideration in framing this, the first and only Insurance Policy ever offered by a weekly newspaper in Canada.

Read the list of benefits below and avail yourself of this wonderful protection by becoming a member of The Blairmore Enterprise Insurance Club AT ONCE—tomorrow may be too late.

\$1000.00 Accident Policy

THE POLICY COVERS YOU

While riding in or driving your own, or any one else's automobile.
While riding in or driving your own, or any one else's horse-drawn vehicle.
While in any public conveyance of any description, such as a train, taxi, steamship, subway, bus, trolley, elevator, etc.
While bathing.
Through the collapse or burning of a building.
Through the collapse or explosion of a boiler.
Through a tornado, cyclone or earthquake.
By being struck by lightning.

AND PAYS YOU

\$1,000.00 for loss of life, limbs or sight.
500.00 for loss of either hand or foot.
250.00 for loss of thumb or forefinger.
125.00 for loss of one or more fingers or toes.
50.00 for loss of either eye.

And many other payments for various injuries.

\$100.00 REGISTRATION BENEFIT

Should the insured be injured away from his home or friends, the Company will pay the expenses of putting him or her in care of, or in communication with friends, up to \$100.00.

AGE LIMITS 16 TO 65

MAN OR WOMAN

NO MEDICAL EXAMINATION—NO RED TAPE

This Policy means SATISFACTION to you
It has been written for YOUR Benefit

What you have to do

Simply subscribe to The Blairmore Enterprise for One Year at the regular price of \$2.00 a year, or Six Months for \$1.00, and pay the Club Registration fee of \$1.00, and a regular numbered policy will immediately be mailed to you.

\$50,000,000.00 Security for Policy Holders

The policy holders are insured in the General Accident Assurance Company of Canada. There is over \$50,000,000.00 as security for policy holders behind the policies.

Remit by Dominion Express Money Order, or Postal Note.

"THE FLANDERS POPPY"

At the request of a number of our readers, the following prize-winning essay by Miss Lena Fraser, on "The Flanders Poppy," is given space in our columns:

The whole title "Flanders Poppy" reminds us of the poem "In Flanders Fields" written during the war by Colonel John McCrae. The thought given in this poem is that although the poppies were blowing and birds singing they could scarcely be heard for the noise of the guns, and that soldiers were dying and throwing the torch for us to carry on in the cause for which they gave their lives. This is a challenge for us to keep the faith so that they may rest in peace in Flanders Fields. The Canadian soldiers died so that we might have more liberty and be freed from German militarism.

The poppy is a small scarlet flower and reminds us of the blood shed by the soldiers. The poppies have spread all over the scarred battlefields of Flanders, growing in great profusion everywhere, covering the shell-holes, trenches, and graves of the soldiers who lie over there. The poppy was formerly a flower of forgetfulness, but now it is the flower of remembrance.

This poem brings to our memories that although the soldiers died over in France their brave deeds will never be forgotten and the soldiers will be remembered and honored for they showed how much they loved their country when they were willing to die for it. Men of every class, ranchers, farmers, laborers, miners, merchants and officers responded to the call, fighting and dying together no matter what position they held previous to the war. Class distinctions were wiped out by the war. Each one was doing his duty in the army, the navy, the air force or some other branch of the service. Death proved to be the great equalizer.

The author of the poem "In Flanders Fields" was Lieutenant-Colonel John McCrae. Colonel McCrae was a doctor. He went to Flanders to help and to care for the wounded men. He was himself wounded, however, and wrote the poem when a patient in hospital in France in 1917.

This poem was his last great contribution to the world, his own hands being the falling hands from which the torch was thrown. He died soon afterwards.

The torch thrown to us from "those falling hands" was the love of liberty and respect for treaties, without which civilization cannot endure.

Poppy Day is held on Armistice Day, November 11th. The poppies are made by disabled soldiers, many of whom are still in hospitals and sanatoriums suffering from the effects of the war, thus when we wear a poppy on Armistice Day we are helping these men along and also are remembering our Glorious Dead who lie among the poppies in Flanders Fields.

At least some of the members of the new Blairmore teaching staff are beginning to realize that they cannot exist on the small salaries they agreed to work for in Blairmore, and in all probability an appeal for increases will be made to the board.

COAL OPERATORS' ASSN. IS NOW DISBANDED

R. M. Young, former secretary of the Western Canada Coal Operators' Association, and now manager of the Canmore Coal Company, was presented with a fine radiola set at a banquet held in his honor by members of the coal operators association at the Palliser hotel last evening. The presentation was made by O. E. S. White-side, who spoke of the loyalty and integrity of Mr. Young while handling the affairs of the operators, and on behalf of the coal operators he expressed the hope that Mr. Young would be very successful in his new work.

The coal operators' association officially disbanded on Friday. With the United Mine Workers of America no longer in control in the province, the operators felt that inasmuch as the operators had negotiated individual agreements with the miners in their respective districts, there was no further need of the organization, and following Mr. Young's resignation to accept a new position, decision to disband the organization was reached. The organization was formed four years ago, and during that time Mr. Young, on behalf of the operators, had negotiated the various agreements with the miners' officials from time to time.

The gathering last night was representative of the mine operators from all over the province. John Shanks, of Nordegg, presided, and after dinner had been served, everyone present was called upon to say a few words.

While no official statement was made, it was intimated that if the need ever arose in the future, the coal operators of the province would get together and unite as in former years—Calgary Albertan of November 28.

DAMASCUS ENDURES FROM ABRAHAM TO AIRPLANES

Among the innumerable descriptions of Damascus none is more remarkable than that, characteristic in its epigrams and antitheses, in Disraeli's "Tancred." "The most ancient city of the world," he wrote, "has no antiquity. This flourishing abode is older than many ruins, yet it does not possess one single memorial of the past. * * * Temples have been raised here to unknown gods and to revealed divinity; all have been swept away. Not a trace of a palace or a prison, a public bath, a hall of justice, can be discovered in this wonderful city where everything has been destroyed and nothing has decayed."

"Damascus," said Disraeli, "had municipal rights when God conversed with Abraham. * * * Here is a city that quaffed the magical elixir and secured the philosopher's stone, that is always young and always rich. * * * There is not a form of government which Damascus has not experienced, excepting the representative, and not a creed which it has not acknowledged, excepting the Protestant. Yet, deprived of the only rule and the only religion that are right, it is still justly described by the Arabian poets as a pear surrounded by emeralds."—Manchester Guardian.

CANADIAN BUSINESS

CONDITIONS

(Royal Bank Monthly Letter)

The upward trend of business activity has been continued during the past month and become more widespread with the effective increase in agricultural purchasing power. Tangible figures of production, trade and transportation for October show general gains.

The total yield of wheat in Canada is now provisionally estimated by the Dominion Bureau of Statistics at 422,327,000 bushels, an upward revision of 30,508,000 bushels from the preliminary estimates, due chiefly to better returns from Saskatchewan. This is the second largest Canadian crop on record. While inclement weather in the prairie provinces interfered seriously with threshing operations during October, lowering in some districts the quality of the grain, conditions became more favorable in November, and threshing was resumed.

The movement of the crop has proceeded with almost unprecedented rapidity. From August 1st to November 6th, 86,856 cars of wheat have been inspected at Winnipeg. Of these 81.9 per cent have been contract grades. This compares with 51,644 cars inspected from August 1st to November 6th, 1924, of which 63.7 per cent were contract grades.

Western loadings of grain have been the largest on record, and the heavier movement of merchandise and miscellaneous freight both east and west indicates that the process of general merchandise distribution has gone on much more actively than it did in the corresponding weeks of last year. The commercial situation in the west appears to be one of steady improvement. The early advent of colder weather stimulated the demand for seasonal goods, and reports of better business in both productive and distributive lines are general. Collections also have improved.

Eastern Canada has rarely known better average crops. Provisional estimates place the yield of wheat at 24,345,000 bushels, and oats at 111,569,000 bushels, as compared with 21,397,000 bushels and 114,249,000 bushels respectively last year. Tobacco production is estimated to exceed 15,000,000 pounds, and current prices are remunerative. The grape crop, though lighter than in the previous year, was of excellent quality and satisfactorily marketed. Unseasonable weather, however, inflicted severe damage on the apple crop in the Georgian Bay district, and the loss is estimated to exceed 30,000 barrels. The potato crop is average in yield, but owing to short crops in the United States, ruling prices are substantially higher. General improvement is reported in retail trade, and broadening demands for actual consumption are reflected in increased turnovers in jobbing and wholesale lines and growing activity among the industries.

The iron and steel industry is expanding. Production of pig iron in Canada for October, amounting to 74,013 tons, was more than double that of September, and marked the maximum output in any month since 1924; while the increased tonnage of steel ingots and castings almost trebled that of September. Newsprint production in Canada for the same month reached the record total of 137,506 tons, and for the first ten months of 1925 aggregates 11 per cent more than last year.

The volume of building, as indicated by construction awards, is increasing steadily both in industrial and residential construction, instead of falling off as is usual at this season of the year. The total awards for the month of October were \$29,647,500 as compared with \$21,606,800 for the same month last year.

Production figures of British Columbia fisheries for the current season are particularly gratifying. The total salmon pack of all grades as

at September 26th, amounts to 1,459,966 cases, which compares favorably with 1,341,677 for the same period last year. Market conditions are better, with larger demand from the United Kingdom for first class grades. The halibut fishing also had a successful year. The catch for the eight months of 1925, February to September inclusive, totalled 261,564 hundredweight, with a landed value of \$2,425,573.

The dairy industry in the west has made remarkable progress during the last few years. Pasture conditions during the past season have been favorable to large butter production, and so far this year the output has increased. Domestic consumption continues strong, while export demand, especially from the United Kingdom, has increased. On November 1st, according to government figures, there were only 16,811,099 pounds of creamery butter in storage as compared with 33,107,984 pounds on that date last year, a decrease of 49 per cent.

INITIATIVE, REFERENDUM AND RECALL

Unless we understood wrongly, this was one of the main planks in the political platform of the U.F.A. previous to the advent of the Farmer government. That is the last we have heard about it. But no, that is not quite accurate. The U.F.W.A. at the last convention at Calgary reiterated the principle of the "recall" by passing a resolution calling for recall of rural school trustees. The U.F.W.A. through its educational section is probably the best informed and most progressive lay body in this province, and it is surprising indeed that this organization's recommendation, supported as it is by such a large body of informed public opinion, should have produced no response.

A great deal of unjust criticism is heaped respecting alleged infidelity of the Farmer government with respect to placing on the statute books reforms forecasted by the U.F.A. platform. The fact is that economic conditions throughout the whole world together with legacies of liabilities from previous administrations, constituted insurmountable barriers to the institution of reforms involving increased expenditure or higher taxation. However, we can not see how this argument can be used in justification of inertia respecting the recall of school trustees.

We wonder: "Does the administration really believe in the recall?" If so they must make its applicability to the school system an exception to the general rule. Surely the institution of the recall for school trustees would not increase government expenditures by a single dollar. Yet any person in close touch with school matters knows without a shadow of a doubt the recall of school trustees, except in the case of the large city boards, would serve as a safety-valve and tend towards a more satisfactory working of the whole educational machine.

Cases arise by the score every year where school trustees perform acts, or put into effect policies altogether in opposition to the wishes of the ratepayers. Every year petitions galore crowd into the department of education requesting them to override the will of the school board which is acting contrary to the desire of the majority of their electors. But with the present absolute powers delegated to school boards, the department is powerless to interfere. Official trustees can not be installed unless the board is seriously violating the school act. A board may be guilty of outrageous conduct towards a teacher and the department can do nothing more than make representations to the school board which the school board is perfectly at liberty to ignore or respect. Injustice to a teacher is of no legal consequence, but once let a secretary mistreat his accounts or neglect the finances and the way lies directly open to the installation of an official trustee.

Many boards of trustees who find themselves at variance with their electors either resign promptly or

bring their policy into line with public approval, but others who take a delight in informing the ratepayers that: "You put me in, and you can't kick me out. I'm just going to do as I please until my term of office expires. Now what are you going to do about it?" What a travesty on democratic government! Absolute unbridled power within the limits of the statute, and nobody to say them nay.

Had the recall of school trustees been an established fact the Blairmore crisis would never have arisen. Ratepayers' money would have been saved, the school system would not have been dislocated and Blairmore would not be a byword in Alberta school circles. Facilities provided for the calling to account of unconscientious, defiant, hot-headed and quarrel-loving trustees would do more for the Alberta educational system than the legislature has done for it since its inception of the province. What is the cry? "Peace, peace, when here is no peace." Peace comes only when tyranny and abolition are overcome. The small school district system is inefficient, tyrannous and a seething mass of turmoil and quarrel. Such will it remain until the absolute powers of school trustees in the small districts are curbed or until the rural school board of trustees is abolished altogether and a more dignified organization or unit takes its place. In the meantime, the best we can hope for is that the recall be brought into being and an impartial tribunal be established to test with petty disputes.—A.T.A. Magazine.

A bank takes on a number of young men during the summer. On their salary receipts is printed a legend something like this: "Your salary is your personal business—a confidential matter—and should not be disclosed to anybody else."

One of the new boys in signing this receipt, added: "I won't mention it to anybody. I'm just as much ashamed of it as you are."

An absent-minded man was deep in his work when his wife called to him: "Henry! Baby has swallowed all the ink in the inkpot. Whatever shall we do?" "Write with a pencil, I suppose," was the dreamy reply.

SCRIPTURE CAKE

2 cups 1st Kings, 4:22; 1½ cups Judges, 5:25; 2 cups Jeremiah, 6:20; 2 cups 1st Samuel, 30:12; 1 cup Numbers 17:8; ½ cup Judges, 4:19; 6 cups Jeremiah, 17:11; 2 teaspoons 1st Samuel, 14:25; 2 teaspoons Amos 4:5; 2 teaspoons 2nd Chronicles, 9:9; a pinch of Leviticus 2:13. Follow the "Crows' Nest" rate for making a good cake. Flour, butter, sugar, figs, raisins, almonds, milk, eggs, honey, soda, spice, salt.

Eighty per cent of the municipalities in the province of Quebec have formally assured the Royal Automobile Club of Canada that they are in favor of an amendment to the existing law, making it compulsory for all vehicles, of whatever type, to carry lights visible from front and rear, after nightfall. As matters now stand, if an automobile, properly lighted, runs into a cart being driven along a country road at night, without lights—and it is very easy to run down a cart, especially when rounding a corner at a reasonable speed—the driver of the automobile is held and mulcted for damages. And drivers of carts and buggies are sometimes indifferent as to which side of the road they drive on after dark, moreover. It is coming to be a common opinion that the risks should be as evenly distributed as the responsibility.—Ex.

Breathes there a man with soul so dead,
Who never to himself hath said:
"I'll pay before I go to bed
The bill I owe the printer."

Yes, there was one we knew full well,
But he, alas, the truth to tell,
Is dead, and straightway went to—
well,
The place that has no winter!

A few days ago in the local court some laughter was created when the following ensued:
Magistrate—"Have you appeared as a witness in a suit before?"
Witness—"Yes, of course!"
Magistrate—"What suit was it?"
Witness—"My blue serge suit."

At a convention of Liberals held at Pincher Creek on Wednesday of last week, Mr. Harvey Rosenberry was named as candidate for that riding in the next provincial election.

IF—

If you can keep your temper when a tire blows out,
And it is raining hard, and you are far
From telephones, upon an unknown route,
And wife's a fussin' from the stranded car;
If you can whistle while you rummage after
Wrenches, finding only 'they are gone;

If you can think of auto thieves with laughter,
And hurt your thumb, and then break forth in song;
If you can answer questions fools ask about you
While you work;
If you can grin when all is mud about you—
Lie down in slush, and don't rage like a Turk,
If you can toil and toil and get things ready,
Then find you've put a bum tube in your tire;

If you can start again—keep sweet and steady,
And work on nerve, and don't get mad as fire;
If you can go through this and crawl from "under"
And drive on home without a trace of grouch,
This world ain't fit for you—you're just a wonder,
You've either got religion or you're dumb; I'll vouch.

LETTER FROM A
DELINQUENT SUBSCRIBER

"Dear Meester Editor: I got your letter. Be payshant: i ain't forgot you. You kick about what i owe you. Now wait. When sun fool pays me i pay you. If this wuz judgment day an you wuz no more prepared to meet your maker than i am to meet your account, you sure would have to go to hel. Trusting you will do this."

Teacher: "For men must work and women must weep." What is the meaning of that line, Tommy?" Tommy: "It means that men have to work to get money, and then the women have to cry before the men will divide it with them."

Bellevue Bakery patrons had better start saving bread wrappers.

WORLD HAPPENINGS
BRIEFLY TOLD

Turkish telephone operators are considering a strike, following refusal of demands for wage increases.

A gas mask producing its own oxygen has been invented by H. G. Carter, of Victoria, Australia. This has partially solved, at least, the problem of masks for divers and miners.

The world's largest saxophone recently made its appearance in London in a musical display. It is 22 feet high and the bell is four feet in diameter.

Baile, a little town in the mountains of Colorado, is so prosperous, it has asked the state public utilities commission permission to provide water to its residents free of charge.

During the demolition of a very old house in a village near Bergamo, Italy, a human skull filled with diamonds and silver coins was found in a hollow wall.

Commercial travellers in some parts of California use homing pigeons for rushing orders to their head quarters. Homing pigeons are carried by the travellers and released when needed.

Provision for the upkeep of his large string of horses until their natural death and the erection then of a stone over their graves, is made in the will of the late David Shaw, millionaire horse fancier of Cleveland.

Communism can tell no footing in Britain if good houses, food and opportunities to succeed are available, declares Miss Irene Ward, political student, in an address before the Canadian Club at Toronto.

A resolution, reaffirming the stand of organized labor in the United States in favor of the principles of the world court, was passed by the executive of the American Federation of Labor at Washington.

Canada has decided to take part in the British Industries Fair which is to be held in London and Birmingham in February next. The Canadian chamber of commerce in London, by arrangement with the high commissioner for Canada, is organizing the Canadian exhibit at the London section.

Supra Snitely, a Havasupai Indian, of Grand Canyon, Arizona, has been thrown from his horse for the first time in one hundred years. The previous occasion was when he was four years old. He is now 104. This time, however, he was critically injured.

Sensational Ore Find In B.C.

Rich Strike of Ore Discovered by Lucky Prospectors

A dispatch from Terrace, B.C., states that samples of ore reaching there from the latest discovery near Vanardol, a station on the Canadian National Railways a few miles east of Terrace, are of a sensational character and have created much excitement among mining men. Assays of the ore run \$75 to \$250 per ton. But of equal interest is the size of the veins and the great amount of mineral they carry, nearly all high grade with exceedingly rich streaks or pockets. The veins on the Silver Bow claim, which was located by the original discoverer, William Van Meter, have been traced to adjoining claims and arrangements are being made by Van Meter and the George Little syndicate, of Terrace, to drive tunnels on their respective property. The location is about a half mile from the Canadian National Railways and is ideally located for development work.

Not Thrilled By City Life

Eskimos Apparently Not Impressed by Signs in Montreal

After seeing all the sights of a modern city the four young Eskimos, men who joined the Jean Revolution, an Arctic fur-trading schooner, when she was brought to Liverpool, N.S., for overhauling, were apparently not thrilled.

The only modern thing man likes to which they have become partial is tobacco, for they smoke continually. The Eskimos went from Montreal to Paris, Ontario, where they will stay for the winter. It will be impossible to send the boat north before the spring, so the natives are being kept at Paris until an opportunity occurs in the spring to take them overland to their home at Baker Lake.

An important piece of Dominion-wide legislation is compulsory patrol of railway lines throughout the forested areas of the Dominion for the prevention of fires caused by locomotives and railway operation generally.

Farmer (using telephone for the first time).—Send me a bushel of oats. Voice Over the Wire.—Who are they? Farmer.—They're funny with me, my lad. They're for my horse.

W. N. U. 1006

Curb Red Activities

Communists in Western Canada To Be Closely Watched From Ottawa

Activities of Communists in Western Canada are being closely watched from Ottawa. The Communist Party Headquarters in Winnipeg, referred to in a Winnipeg newspaper, are being scrutinized and action will no doubt be taken where the law is transgressed by such publications. The chief interest of the Dominion Government in Communist activity hitherto has lain in the efforts made to penetrate organized labor, and these efforts have not so far met with any great success. It is pointed out here.

The education of young children in the tenets of Bolshevism is undoubtedly going on, it is said. The recent deportation of a whole family from Winnipeg back to England couched from the seditious speeches made by a young boy at a May Day demonstration. This action was taken by the immigration department, which along with the labor department and the Royal Canadian Mounted Police, are interested in the Communist movement in Canada.

Britain's Offer Is Generous

Interests of Egypt Would Be Protected In Control of Nile

Within the period of a generation one of the longest rivers in the world, from its headwaters to the sea, should be completely harnessed to the service of man. Regulated, controlled, and disciplined, the achievement will be unsurpassed by any engineering feat, ancient or modern. How is the safety of these great works to be ensured? Egypt demands the cooperation of the Sudan by Great Britain, and the creation of a semi-independent state under their water requirements of the Sudan, and thus its entire development, should be subordinated to her own needs.

Great Britain offers Egypt a defensive alliance, a partnership in the administration of the Sudan, and the placing of the control of the Nile in the hands of a neutral and international body. In the opinion of the many thousands of foreigners living in Egypt, who are in a position to form an unprejudiced judgment, England's offer is generous in the extreme.—T. B. Barron in the Nineteenth Century.

Vagrant Children In Russia

Big Cities Overrun By Homeless, Half-Starved Waifs

Vagrant children in Russia number more than 300,000, the commissar of education has found. He characterized it as a situation menacing the welfare of the country and according to him has organized a new system of factory schools for homeless children. The big centres, like Moscow, Leningrad, Kharkov and others are overrun by homeless waifs who sleep on the sidewalks, beg and are half-starved. The "Central Lenin Fund" for vagrant children, to which the government contributed several million roubles and to which another few millions have been added by voluntary contributions, has been found insufficient.

The factory school intends to teach the waifs various trades in addition to their general education.

New Fire Fighting Plane For Manitoba

If Machine Is Successful Others May Be Constructed

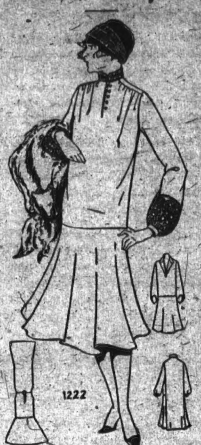

A seven-passenger twin engine flying boat, which it is said will revolutionize the aerial fire fighting methods used by the government protective patrols, is being tested at the Dominion Government airfield at South Marsh, near Ottawa. It is satisfactory. It will be flown to Manitoba, where it will take on fire protective duties in one of the most important forest areas. Although practically the same size as an ordinary machine, and with two engines on either side of the body of the wing of only 200 horsepower, the machine is capable of a speed of between 90 and 100 miles an hour. If this machine is successful others of the same type may be constructed for fire fighting purposes.

Ontario's Honey Crop

Ontario's crop of honey this year is of exceptionally high quality, and already 1,200,000 pounds of honey have been moved through the cooperative association. The product of Ontario's apiaries is now finding its way into the Scandinavian countries, France, Belgium, Holland, Germany and Switzerland.

Alberta Made Sugar

October 25th, saw Alberta-made sugar, from the factory at Raymond, Alberta, on the market. The product of Alberta looks to be fully equal to that made from Cuban cane and with the extension of growing operations in Southern Alberta, it is expected to extend the market.

CLIPSE FASHIONS
Fashionable
by Hand-Crafting

The Fashionable Flare

Fine wool felt fashions this frock with the front of the skirt flaring in the fashion new manner. Very simple and very chic are the lines of this youthful frock, which may be worn successfully for any day-time occasion. The plain back extends over the shoulder at the front in a soft fold, to which the skirt is slightly gathered. Small, round buttons fastening with loops of braid make an attractive closing for the convertible collar, which is worn buttoned close to the neck. The lower section of the full sleeves is finished with a handsome oriental trimming, a narrower width being used for the collar. The design pictures the simple design of No. 1222, which is in sizes 16, 34, and 36 years (34, 36 and 38 inches bust), size 18 years (36 bust) requires 4 1/2 yards of 36-inch, or 4 1/2 yards of 42-inch material. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

Sweden Had Unusual Summer

Average Temperature Was High With

An Abundant Rainfall. The official daily weather records, which in Sweden go back two hundred years, reveal for the past season a number of astonishing facts. On several occasions this summer Sweden has been warmer than Egypt, and the average temperature for July was higher in Stockholm than in Paris. The rainfall was also three times more abundant than usual and yet the number of hours with sunshine came close to the record, held by 1814. The Swedish crop has been remarkably abundant this year and the weather conditions for the harvest favorable.

Alberta Good Roads

Ambitious Road Building Programme Will Be Completed In 1927

By 1927 the Alberta Government hopes to complete its \$3,500,000 road building programme, says Hon. Alex. Ross, minister of public works, announced. By that time the province will have earned a \$1,500,000 grant from the Federal Government. Sub-grants are being constructed on 2,500 miles of highway. Six hundred miles have been surfaced already and about 250 miles travelled. Ultimately all the main highways in Alberta, leading east, west, north and south, will be travelled.

Many Autos Registered

More than 52,000 motor cars are operating in Alberta this year, compared with something over 47,000 in 1924. The total receipts from car licenses up to the middle of September this year were \$912,000, compared with \$845,000 for the entire year of 1924.

He.—But don't you cook much more or dinner than we eat, darling? He.—Of course, silly! If I didn't, how could I economize by making left-over dishes?

Powerful Rays From Cosmic Spaces

Graduate Of Saskatchewan University Is Associated With Great Scientific Discovery

Rays more penetrating and powerful than anything heretofore known, or imagined on earth have been discovered, studied and measured by Dr. Robert A. Millikan, of the California Institute of Technology, Pasadena, America's most famous scientist, with whom has been associated in the last most fruitful years of his research work G. Harvey Cameron, son of Principal A. W. Cameron, of Nutana College Institute, Saskatoon, and a gold medalist of the University of Saskatchewan.

Announcement of the remarkable discoveries made by the two scientists was made by Dr. Millikan recently at a meeting of the National Academy of Sciences at Madison, Wis. He told of invisible messengers from the great cosmic spaces beyond the ken of man, rays approximately 100 times more penetrating than the most powerful X-rays produced in hospitals and laboratories.

Mr. Cameron, whose share in the discovery brings him into world prominence as a scientist, was graduated with honors from the University of Saskatchewan with a Bachelor of Science degree in 1921. On the recommendation of Dean G. H. Lang and Dr. E. L. Harrington, Mr. Cameron was given a teaching fellowship in the California Institute immediately after graduation.

Interesting Secret Revealed

New British Admiralty Obtained Possession of German Signal Codes

An interesting piece of secret history, which explains how the German naval signal codes came into the hands of the British admiralty, has just been revealed in London.

When the German cruiser Merganser struck a mine near the island of Odenstolm, off the Easthian coast, the crew abandoned the ship and surrendered. But it was noticed by some of the British fleet that the German officers jumped overboard.

This aroused the Russians' curiosity, the spot was noted, and a diver was sent down. He recovered the body of the officer, and it was then found that the letters had secured in his person a number of secret German naval codes.

A copy of these codes was supplied to the British admiralty, but the Germans, unaware that they had fallen into hostile hands, continued to use them. It is stated that the possession of these German codes was of considerable value to the British fleet during the battle of Jutland.

Prince Has To Make Report

Always Talks With Premier Before After Empire Tour

It has always been the practice of the Prince of Wales before starting on an empire tour to have a talk with the premier of the day and to report to him, as it were, on his return. This was the character of the interview the Prince had with Mr. Baldwin at York House, when Mr. Baldwin had much of interest to impart. The ambassador of empire has said "report" to make. It is to the lord mayor and citizens of London, and the occasion for it will be a state luncheon. It was at a similar function that the present King, when prince of Wales, gave his famous "Wake Up, England" speech. His son may have no such stirring slogan, but an address of unusual interest is expected.—Liverpool Weekly Post.

Created Canadian Record

Pen of White Leghorns at Langley, B.C. Wins Egg-Laying Contest

With a grand total of 2,633 eggs, the pen of White Leghorns owned by J. H. Mofford, Langley, has won the fifth egg-laying contest at the Dominion experimental farm, Agassiz, B.C. The pen was not only created a Canadian record but probably a world record under official test, according to W. H. Hicks, superintendent of the station. The hens of the winning pen of ten birds have an average of 268 eggs each.

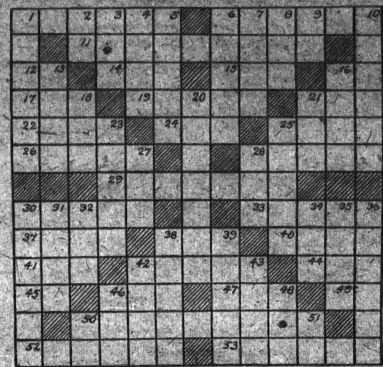

Equine Casualties in the War

The horse and mule casualties on the western front during the World War, distinct from cavalry figures, are placed at 129,388 killed and injured. In the official history of the veterinary services. Of this number, 178 were killed and 1,868 injured by gas and 31,308 were killed and 67,533 wounded by shrapnel.

Profitable Whaling Industry

British Columbia's whaling industry annually produces about 400 tons of whale bone meal and 300 tons of meat and blood for fertilizing purposes. A small quantity of this is sold as fertilizer in the province and the remainder is exported, principally to the United States.

OUR CROSSWORD PUZZLE

Horizontal

- 1—One who captures
- 2—People who are in different to pleasure of pain
- 11—Purchasers of securities
- 12—Near
- 13—Spread to dry
- 14—Engineering degree
- 17—Vehicle used for moving
- 19—Pertaining to ships
- 21—Winglike organ
- 22—Kind of lava
- 23—Pitch
- 24—An astrigener
- 25—Watery portion of certain animal fluids
- 26—Small bodies of land
- 28—Dutch merchant vessel
- 30—Reward
- 32—Perceive

Vertical

- 1—Desires earnestly
- 2—Jumbled type
- 3—Nativity
- 4—Cooking apparatus
- 5—Projection in a wall
- 6—Long narrow piece of leather
- 7—Impudent
- 8—Circle
- 9—Reward
- 10—Smile vapor
- 11—Mohammedan prince
- 12—Kitchen utensil
- 13—Kind of duck
- 14—Illuminated
- 15—Was scorned
- 16—Don't
- 17—Pronoun
- 18—Belonging to us
- 19—Vegetable
- 20—Kind of deer (pl.)
- 21—Type of match (pl.)
- 22—Fame

Faced Ordeal At Sea

Father and Daughter Shipwrecked in Nine-Ton Yacht

William S. Duff and his 16-year-old daughter reached New York with a thrilling story of their attempt to sail to New Zealand in a 9-ton yacht, the Merganser. Everything went well until September 8, said Mr. Duff, when, off Philadelphia, they struck a succession of heavy gales.

Based in and battered down tight for three days at a time, we were utterly helpless and at the mercy of the storm.

In collision with a French trawler the Merganser's bowsprit was wrecked away, and later the two occupants of the tiny craft saw a steamer founder less than 100 yards away.

The sextant, chronometer and almost everything movable was wrecked away. The end of their adventure came when the Merganser ran on to a sandbank outside Carlinville Harbor.

Both father and daughter declare that they are willing to repeat the attempt.

Unemployed Insurance

Commission of Twelve Is Appointed by British Government

Twelve men of the highest standing have been chosen by the department of labor in Britain to make an exhaustive inquiry into the system of unemployment insurance, commonly known as dole, and to report its effect upon the morale of working people.

Under the terms of reference, the commission will be able to make a most thorough survey of a subject that has proved a nightmare to successive governments, including the Socialist regime of Ramsay MacDonald.

The act which authorizes the giving of state aid to unemployed workmen will expire next June, but it is hoped that the committee's report will be ready long before. The inquiry will extend to every industrial community, with special attention to methods of administration, which in many districts are so poor that capable workmen need never seek employment, but can live in comparative ease upon donations from the taxpayers' funds.

Know What He Wanted

The Rev. Angus McGlasson, a Scot of many years but a few words, was on a flying visit to the Jamiesons, who had years ago taken a membership in his congregation.

"Well, you take a cup o' tea, Mr. McGlasson," said the kindly Mrs. Jamieson.

"No thanks, no tea," replied he. "A cup of coffee, then."

"No coffee."

"Well, I make 'ye cocoa?"

"No cocoa."

"Why, then, Mr. McGlasson, you know a glass o' whisky and soda?"

"No soda."

It is estimated that 800,000,000 persons in the world wear shoes of some kind.

Thrilling Rescue Of A Steeplejack

Was Overcome By Fumes At Top Of Factory Chimney

Little crowds at Witley, England, watched breathlessly the thrilling rescue of a steeplejack who was overcome by fumes at the top of a 100-foot factory chimney.

The steeplejack, Harold Edginton, was engaged in pointing the brickwork when he reeled and fell unconscious, with one leg inside and the other outside the chimney.

His employer's son, Bert Cross, climbed up the chimney, putting up boards and ropes after him. He succeeded in "hooking" Edginton to the boards, and in placing his head in such a position that it was out of reach of the fumes.

Darkness had set in by this time, and the Birmingham firemen, who were sent for, directed a searchlight on the flame rising on the chimney in mid-air.

Edginton then ascended the stack, and Edginton was safely brought down and taken to the hospital in a serious condition.

New Pulp Mill

Construction Work Started For Manitoba Pulp and Paper Company

Work is now under way on the 250,000 pulp and paper mill being erected by the Manitoba Pulp and Paper Company, Limited, according to Col. H. C. L. Jones, vice-president of the Spanish River Pulp and Paper Company, which is behind the venture. The mill, when completed, will be very large for the one day, owned by the latter company at Espanola, Ontario, and the construction conditions on the two sites are also alike.

A Problem

Silas—"Old man Hickey looks worried."

Hiram—"Yes, he's trying to think of a way to move his property out here to the country. He says it would make a nice hot ruin."

Silas—"What did he buy in the city?"

Hiram—"The Brooklyn bridge."

Mrs. Oublight (at the shore)—A rotten wonder what the wild waves are saying.

Rubbed—Nothing, Maria. They are like some people I know; they make a great deal of noise but they don't say anything.

Items of Local and General Interest

Parliament will meet at Ottawa on January 7th.

An Elks' lodge is likely to be instituted at Taber.

Mr. G. Watkins Evans was a brief visitor here on Friday last, continuing on to Corbin, B.C.

Mrs. F. McLaren, accompanied by Mrs. D. A. May, returned from Vancouver on Sunday night last.

Mrs. Rhynas, mother of M. G. Rhynas and Mrs. J. H. Farmer, arrived here yesterday from Ontario on a brief visit.

Mrs. Harry Burns has been called to Toronto, owing to the serious illness of her mother, and left for the east on the 22nd.

The bodies of J. McLane and L. Burke have been recovered from a Drumheller mine and shipped to Nova Scotia for burial.

Lethbridge council will apply for a charter amendment at the next session of the legislature for the institution of a service tax, or modified income tax, to take the place of the poll tax.

Viscount Jellicoe suggests that Canada contribute \$38,000,000 a year to the imperial navy for the next four years, as well as build a Dominion squadron of four cruisers, within that time.

Right Hon. W. S. Fielding, former minister of finance at Ottawa, celebrated his 77th birthday on November the 24th. Although removed from active political life two years ago this month by illness, Mr. Fielding retains a lively interest in politics.

The Kimberley city hockey league has been organized, consisting of three teams, Upper Mine, Tunnel and Gyros. The winning team will hold the Archibald cup for a year. The secretary of the league has written Coleman and Blairmore, asking for dates for exhibition games.

Messrs. L. Duff, J. R. Gresham and H. P. Thorsen returned from Calgary on Sunday morning, where they had been summoned to undergo examination for discovery in connection with the suit of Thorsen et al versus the Blairmore School Board. The case, which was to have been tried on Monday next, has been set over for one month.

Bellevue Bakery patrons had better start saving bread wrappers.

Blairmore's 1925 school board claimed that they were justified in cutting teachers' salaries. They also claimed that the old staff were living in luxury. Neither of the above claims can be reasonably founded and the board is not in a position to prove that any of the old staff had or could set aside any portion of their income for a rainy day.

Remember the debate to take place at the United church tomorrow evening, commencing at 8 o'clock. The subject will be: "Resolved that newspapers as at present conducted are a menace to society." Misses Annie McKenzie and Marietta Wheatley for the affirmative; Misses Helen Miller and Rege Dawson for the negative. Silver collection in aid of Debating Society.

The annual bazaar under the auspices of the Order of Eastern Star was held in the Lodge Hall last evening and was well patronized. Tea was served during the evening. At night twenty-four hands of progressive whist was played, followed by luncheon and dancing. Miss Emma Kidd was the lucky winner of the "wedding cake"; Mrs. Griesbach won the doll; and Mrs. Harold Pinkney the cushion. In the neighborhood of three hundred dollars was realized.

Last week Mr. L. L. Morgan, of the Crows' Nest Pass Motors, received one of the newest wonders in radio; the Rogers' Super A-C table Model 5-Tube Batteryless, and quite a number of people have since enjoyed the demonstrations. The "just plug in—then tune in" slogan of the Rogers set introduces to radio an entirely new standard of simplicity and ensures the fullest of radio enjoyment and convenience to all who possess these sets.

Give the Kiddies a Season Skating Ticket for Christmas.

Bellevue Bakery patrons had better start saving bread wrappers.

Miss Frances Gibeau has come out of hospital, following an operation for appendicitis.

Miss E. M. Fulton is spending the week end at Cowley, with her sister, Mrs. Morrison.

The groom at the wedding, like an automobile engine, is unseer but very necessary to make the thing go.

W. Valgardson, of Taber, derived \$346 from three and a half acres of beets. The yield was 21½ tons per acre.

Clareholm Liberals nominated R. E. Moffat, of Clareholm, as candidate for the forthcoming bye-election.

The Blairmore Elks will hold their annual dance in the opera house on New Year's Eve. Watch for later announcements.

The regular monthly meeting of the Ladies' Aid of the United Church will be held in the church at 2:45 p.m. on Wednesday next.

"Your letter will receive my unmitigated attention," wrote the man who was broke, in answer to the dumping letter from his tailor.

One reason why a man has more pockets than a woman is because his collar is too tight to permit him to throw things down his shirt front.

Mr. Frank Wheatley, senior, who sustained a fractured jaw through a fall while in Edmonton a week or so ago, is expected back in the course of a few days. Mrs. Wheatley is accompanying him.

Electric lights, so tiny that it would cost only a cent for current to keep them burning for an entire year, are reported as possibilities by the December Popular Science Monthly.

The new lights were discussed at a recent meeting of the Illuminating Engineering Society in Detroit.

Many theatre goers were disappointed over the non-appearance of "The Ten Commandments" at the local theatre on Friday and Saturday last, as advertised. Mr. Ptacek informs us that the films were carried through to Vancouver and will return this way in the course of a few weeks.

Richard Field, father of Inspector Field, of the R.C.M.P., came down from Fernie on Sunday to spend a few days here with Mr. and Mrs. Conway. While eighty-one years young, Mr. Field possesses a strong constitution and can read without glasses, and is capable of doing a day's hike on foot with many who are less than half his age.

What appeared to be a deliberate attempt at suicide occurred near Coleman C.P.R. station on Saturday night, when Leonard Beaver, a resident of Hillcrest, about nineteen years of age, is said to have jumped in front of train 68, eastbound. The engine and two cars passed over him before the train could be brought to a standstill. When picked up, he was still living and was rushed to hospital, where his condition is still precarious.

Last week Mr. L. L. Morgan, of the Crows' Nest Pass Motors, received one of the newest wonders in radio; the Rogers' Super A-C table Model 5-Tube Batteryless, and quite a number of people have since enjoyed the demonstrations. The "just plug in—then tune in" slogan of the Rogers set introduces to radio an entirely new standard of simplicity and ensures the fullest of radio enjoyment and convenience to all who possess these sets.

Mr. Carwell, of the "L. B. K." Stores, Lundbreck, is in town today.

Bill Henderson will manage the Lethbridge hockey team this winter.

A Conservative convention will be held at Pincher Creek on Tuesday next.

The Blairmore Elks will stage their Christmas Tree on or about December 21st.

One newspaper claims that about the only thing not fit for publication nowadays is police court news.

Don't forget December the 17th, "Charley's Aunt" is going to entertain at the opera house on that night.

Dr. F. W. Gallagher, of Alliance, Alberta, has taken over the practice of Dr. C. W. Huffman, chiropractor, at Cranbrook.

J. L. Jamieson, divisional superintendent of the C.P.R., was in town on Friday last and registered at the Greenhill hotel.

From 1910 to the present date the department of roads in the province of Quebec spent a total of \$68,000,000 on highways and roads.

Hundreds of Pass people are availing themselves of the special Blairmore Enterprise Insurance Club offer, and daily we are adding scores of new names to our subscription list.

Miss Jean Galloway returned from Calgary yesterday. Miss Galloway was one of the witnesses examined for discovery in connection with the case of Thorsen et al versus the Blairmore School District.

An exchange remarks: "Thirty-eight thousand, eight hundred and forty-four laws were proposed in the United States last year, of which 10,869 were actually enacted. Our national sport is to be baseball."

Give the Kiddies a Season Skating Ticket for Christmas.

The body of Fireman Eley was recovered from the waters of Moyle Lake on Thursday last, and internment took place at Cranbrook on Sunday afternoon, largely attended by members of the Brotherhood of Locomotive Firemen and the I.O.O.F.

The members of Crowfoot Rebekah Lodge are holding a whist drive and dance in the Lodge Hall next Wednesday, December 9th. Six good prizes will be given and Maun and Bond will supply the music for the dance. A good time is assured for everybody. Refreshments will be served.

CAR OWNERS, ATTENTION! For reasons best known to ourselves, I beg to announce that we have discontinued to handle White Rose gasoline and we are now selling Imperial Winter High-Test gasoline at 40 cents per gallon.—Blairmore Vulcanizing & Battery Station, W. M. Bush, proprietor, Victoria Street, East End.

RUNS FARM AT COST OF A CENT A WEEK

Waldo E. Sexton, graduate of Purdue, and dirt farmer by inclination, runs a dairy farm at Vere Beach with 100 cows and operates a 220-horse farm, largely by electricity, at a cost of one cent a week. He sank an artesian well and was rewarded with an eight-inch flow. He harnessed it with a dynamo of his own manufacture, purchased a set of storage batteries and turned her loose. The water turns the dynamo, fills his storage batteries, milks his cows, runs his milks, grinds his feed, and then flows into watering troughs and a swimming pool. Every Sunday morning he goes out and drops into the dynamo a penny's worth of lubricating oil.—Pictorial Advocate.

LODGE DIRECTORY

Blairmore Lodge No. 68,
 I. O. O. F.
 Meets every Tuesday night at 8 p.m. in the Oddfellows' hall. Officers for the ensuing term: N. G., S. Simister; V. G., J. W. Howe; Secretary, J. B. Harner, P. G., Phone 267.

Crowfoot Rebekah Lodge
 No. 66, I. O. O. F.
 Meets the first and third Thursdays of each month at 8 p.m. Officers for the ensuing term: N. G., S. D. Walker; V. G., S. J. B. Harner; Rec. Sec., S. N. Evans.

Livingstone Lodge No. 22,
 KNIGHTS OF PYTHIAS
 Meets in the Castle Hall on the second and fourth Fridays of the month at 8 p.m. Visitors are always welcome. Officers: G. C., E. Elliott; R. O. B. and S. R. Sinner.
